1981 ANNUAL REPORT

CRIME IN FLORIDA

FOR RELEASE
TUESDAY, MARCH 30, 1982

UNIFORM CRIME REPORTS

State of Florida

1981 ANNUAL REPORT

COMPILED BY THE
FLORIDA DEPARTMENT OF LAW ENFORCEMENT
TALLAHASSEE, FLORIDA

In accordance with Florida Statute 283.27, this public document was promulgated at an annual cost of \$18,621.60, or \$7.45 per copy to inform the Governor, Legislature, prosecuting authorities and law enforcement agencies of the nature and extent of crime in the State of Florida.

Law Enforcement Code of Ethics

As a Law Enforcement Officer, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.

JAMES W. YORK
Commissioner

POST OFFICE BOX 1489

Crime in Florida 1981 ANNUAL REPORT

Dear Governor Graham and Members of the Cabinet:

The Department of Law Enforcement has completed the compilation of statewide crime statistics for the report on Crime in Florida during 1981. Over the past several years, this report has indicated alarming increases in street crime. Since 1977, dramatic increases in the crime rate have been the norm, but 1981 seems to have been an exception. The rate of crime in Florida, measured in total incidents per 100,000 persons, decreased by 3.6% in 1981. This is good news for Florida because the formula for arriving at the "crime rate" does not take into account over 30 million tourists and a myriad of other transient groups which were present in our state last year. In light of the fact that there were far greater numbers of individuals prone to be involved in street crime than Florida's permanent population would indicate, the especially good news is that overall, the number of reported crimes went up only 1.6% over 1980. This is the lowest increase in reported criminal offenses in four years.

These crime statistics are important to the citizens of Florida. A decline in crime rate is cause for optimism. However, Florida still faces serious crime problems. Drug smuggling, corruption and violence continue at unacceptable levels. Florida's Criminal Justice System is still overburdened with cases and our jails remain overcrowded throughout the state. In light of Florida's continuing crime problems, this drop in the crime rate raises obvious questions, not the least of which is why a reduction occurred?

The attention given Florida's crime problem by the press and electronic media has not been good news. The impact of daily headlines, feature articles in the national press, and network news coverage of crime in Florida has obviously had a negative impact on the state's image and its important tourist industry. However, all this so called "bad press" may have been a mixed blessing. Focusing public attention on the crime problem results in sensitivity on the part of potential victims and appears to have encouraged positive public reaction. The most cost effective means of dealing with crime is through grass roots citizen resistance. Law enforcement has an obligation to provide crime prevention programs for the public it serves. The public has an obligation to respond by taking advantage of such programs through participation. Historically, an aware public tends to participate in crime prevention while the uninformed continue to present easy crime targets.

An additional positive aspect of Florida's response to the crime crisis has been the willingness of our political leadership to address the problem head on. The actions of the Governor and Cabinet in response to the crime problem have consistently kept the seriousness of events before the public and there has been no attempt to rationalize or explain away a clear threat to the best interests of the state. Further, the Governor's budget priorities have clearly focused the Legislature's attention on the problem and the legislative leadership has thus far been positive in its response.

Governor Graham and Cabinet
March, 1982
Page 2

Law enforcement, for its part, has done a commendable job in dealing with an overwhelming problem. In too many parts of our state, law enforcement has been forced to shift scarce resources away from crime prevention efforts in order to maintain an acceptable level of response to emergency calls for service. Despite this forced adjustment in priorities, police/citizen crime prevention programs continue and in some cases are more active than ever.

While the 1981 report on Crime in Florida is cause for optimism, it does not paint a rosy picture. The murder rate, particularly in South Florida, and the shift of rising violent crime toward South Central Florida are among several indications that we are far from turning the corner on our crime problem. Statistics for late December and early January indicate the downward turn for overall 1981 has leveled off and may begin a slight upward turn by May 1982.

If anything, this report indicates that we are at least doing something right. Increased public awareness, concerned and active political leadership and increased funding for a traditionally short-changed criminal justice system appear to be positive steps in the right direction. I recommend more of the same.

Sincerely,

A handwritten signature in dark ink, appearing to read "James W. York", written in a cursive style.

James W. York
Commissioner

THE FLORIDA UNIFORM CRIME REPORTING PROGRAM

INTRODUCTION

The Federal Bureau of Investigation has been actively assisting individual states in the development of statewide programs of law enforcement statistics compatible with the national Uniform Crime Reporting (UCR) Program. These statistical programs have been given impetus by development of statewide computerized law enforcement information systems, of which UCR is an integral part. Florida, in concert with the development of the Florida Crime Information Center (FCIC), has become one of the first states to develop its own statewide program of law enforcement statistics, the Florida Uniform Crime Reports Program.

In January 1971, the Uniform Crime Reports and Statistics Bureau of the Department of Law Enforcement, initially began the collection of monthly uniform crime reports from county and municipal law enforcement agencies. As mandated by the Florida Legislature, sixteen publications entitled *Crime in Florida* have previously been disseminated. This document is the eleventh annual report, presenting statistical information collected and compiled through the year 1981.

FLORIDA UCR PROGRAM

The Florida Legislature, in establishing the Uniform Crime Reports (UCR) statute, mandated the responsibility and authority for UCR data collection and dissemination to the Florida Department of Law Enforcement (FDLE) as follows:

FLORIDA STATUTES, CHAPTER 943

Section 5. Division of criminal justice information systems.—

(1) The division shall:

(c) Establish a system of uniform crime reports and statistical analysis.

1. All state, county and municipal law enforcement agencies shall submit to the department uniform crime reports setting forth their activities in connection with law enforcement.

2. It shall be the duty of the division, under the supervision of the executive director, to adopt and promulgate rules and regulations prescribing the form, general content, time and manner of submission of such uniform crime reports required pursuant to chapter 120, and shall have the force and effect of law. Willful or repeated failure by any state; county or municipal law enforcement official to submit the uniform crime reports required by this act shall constitute neglect of duty in public office.

3. The division shall correlate the reports submitted to it pursuant to subparagraph 1 and shall compile and submit to the governor and the legislature semiannual reports based on such reports. A copy of said reports shall be furnished to all prosecuting authorities and law enforcement agencies.

PURPOSE AND OBJECTIVES

The quantitative statistical data derived from the UCR Program will provide assistance in determining the overall scope of the reported criminal activity in Florida and will aid in making effective management studies possible.

The fundamental objectives of the Florida UCR Program are:

(1) Inform the governor, legislature, other governmental officials and the public as to the nature of the crime problem in **Florida**, its magnitude and its trends.

(2) Provide law enforcement administrators with criminal statistics for administrative and operational use.

(3) Determine who commits crimes by age, sex, race, whether resident or nonresident, and other social attributes in order to find the proper focus for crime prevention and enforcement.

- (4) Provide base data and statistics to measure the effectiveness of Florida's criminal justice system.
- (5) Provide base data and statistics to measure the effects of prevention and deterrence programs.
- (6) Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
- (7) Provide data to assist in the assessment of societal and other causes of crime for the development of theories of criminal behavior.
- (8) Provide the FBI with complete UCR data to be included in the national crime reports.

REPORTING PROCEDURE

Crime data and information submitted by municipal and county law enforcement agencies is collected on a daily, weekly, monthly and annual basis. Fingerprints of all adult arrests for felony and misdemeanor (nontraffic) offenses are collected daily. Finally, employee data for law enforcement agencies is collected and published annually.

Starting in January 1972, several minor modifications in reporting procedures were made in response to requests from local agencies and the FBI. Arrests for worthless checks and for narcotics paraphernalia are indicated separately. In January 1973, larceny under \$50 (including attempts) was added as an index offense. A program modification in 1975 involved the expansion of drug classifications and new, expanded property breakdowns. In January 1976, a new category under motor vehicle theft was added to classify motorcycles separately.

Commencing on January 1, 1976, the traditional method of collecting UCR data on a monthly basis was enhanced to a sophisticated offense-by-offense program in Florida. The collection process involves one of three submission methods for an agency: daily through terminal entries, weekly from paper code forms or monthly by computer tapes. With the capability of collecting more detailed data the utility of Florida's UCR Program is enhanced from the contributor and state viewpoint for management, operational and crime trend analysis purposes. By virtue of this enhancement to Florida's UCR Program a more accurate assessment of reported criminal

activity can be made. Municipal police and county sheriff departments report the individual offense data known to them in the following crime categories: murder, non-traffic manslaughter, forcible rape, robbery, assault, breaking and entering—burglary, larceny and motor vehicle theft. Offense data is taken from the records of complaints received by law enforcement agencies from victims, witnesses or other sources, or discovered by agencies during their own operations. Complaints determined by subsequent investigations to be unfounded are eliminated from the count. The resulting data on individual "offenses known to law enforcement officials" in these crime categories is reported, without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy or any other consideration. Municipal and county agencies also report supplemental offense information such as the number of victims, the value of property stolen and recovered, circumstances surrounding homicides and other pertinent data. Additionally, reports of persons arrested are submitted. These reports provide information concerning the age, sex, race and residency of all persons arrested by each individual law enforcement agency. Reports of persons arrested are separated as to adults and juveniles.

VERIFICATION

An obvious concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aids such as guides and instructions do not necessarily guarantee the accuracy and correctness of the reports submitted by the contributors. Additional controls therefore are necessary.

Each individual offense report received by the Department is recorded, examined and verified for accuracy and for reasonableness. The verification process includes numerous checks to ensure the validity of information. The elimination of duplication of reporting by individual contributors receives particular attention. Minor errors are corrected by telephone or FCIC terminal contact between UCR Field Representative and the reporting agency. Substantial variation and errors are adjusted through personal contacts with individual contributing agencies. The personal contacts are invaluable to the accuracy and quality of reporting. Field Representatives are engaged in a constant educational effort and provide a vital link between the UCR Program and the contributor.

INCIDENT REPORTING AND RECORDS MANAGEMENT SYSTEM

As an adjunct to the UCR Program, Field Representatives assist Florida law enforcement agencies as requested, in the development of an Incident Reporting and Records Management System (IRRMS). This system can enhance or replace a law enforcement agency's records system in its method of collecting, storing and retrieving all police service information pertaining to a particular criminal case or police activity. IRRMS can provide small and medium size law enforcement agencies a source of complete information that can be utilized by the entire criminal justice system and by administrators as a tool in decision-making policies.

STATISTICAL ANALYSIS

The Florida UCR Program, by examining the various characteristics of offense and arrest data, provides statistical analysis reports to help law enforcement personnel throughout the state in crime prevention. The statistical analyses in each report assists in such areas as the proper assignment and deployment of preventive patrols and aids in the possible reduction of crime through the early identification of patterned activity. Two sources, for example, that can be used when preparing these special statistical reports are the geographical indicator printout and the case summary report. The purpose of the geographical indicator is to depict the number of specific crimes that occur in a particular area. The case summary report allows an agency to review the status (whether cleared by arrest, exceptional or unfounded) of any particular case. In addition, through special requests, other statistical compilations may be prepared for unique situations in local law enforcement agencies.

CONTRIBUTING AGENCIES AND POPULATION

There are currently 335 law enforcement agencies throughout the state contributing directly to the Florida UCR Program—66 county law enforcement agencies and 269 municipal agencies. In addition, 5 state law enforcement agencies and 9 campus police departments submit data to the program. Daily, weekly, monthly and annual uniform crime reports received from these agencies represent statistical data covering approximately 100 percent of the estimated Florida population.

The 1981 population figures for the State of Florida, county and municipalities were provided by the Division of Population Studies, Bureau of Economic and Business Research, University of Florida. These population estimates, as of April 1, 1981, were produced under contract for the Department of Administration, for incorporation into the 1981-82 Revenue Sharing Program.

The relative statewide estimates reflect populations of 10,097,754 for the year 1981 and 9,579,497 for the year 1980.

SMSA CONCEPTS

The Standard Metropolitan Statistical Areas (SMSA) have been designated for data uniformity among government agencies and between these agencies and the public to include industry and state and local governments. The general concept of SMSA is one of an integrated economic and social unit with a recognized population nucleus. To be more specific, in designating any county as belonging to SMSA, the National Bureau of Standards applies certain prescribed criteria when making this determination.

A Standard Metropolitan Statistical Area always includes a city (cities) of specific population which constitutes the central city and the county (counties) in which it is located. A Standard Metropolitan Statistical Area also includes contiguous counties when the economic and social relationships between the central and contiguous counties meet specified criteria of metropolitan character and integration.

1. Each Standard Metropolitan Statistical Area must include at least:
 - (a) One city with 50,000 or more inhabitants, or
 - (b) A city having a population of at least 25,000 which, with the addition of the population of contiguous places, incorporated or unincorporated, which have a **population density** of at least 1,000 persons per square mile, and which together constituted for general **economic** and **social** purposes, a single community with a combined population of at least 50,000 provided that the county or counties in which the city and contiguous places are located has a total population of at least 75,000.
2. A contiguous county will be included in a Standard Metropolitan Statistical Area if:

- (a) At least 75.00% of the resident **labor force** in the county is in the nonagricultural labor force, and
 - (b) At least 30.00% of the employed workers living in the county **work in the central county** or counties of the area.
3. A contiguous county which does not meet the requirements of Criterion 2 will be included in a Standard Metropolitan Statistical Area if at least 75.00% of the resident labor force is in the nonagricultural labor force and it meets two of the following additional criteria of metropolitan character and one of the following criteria of integration.

(a) Criteria of Metropolitan Character.

- (1) At least 25.00% of the **population is urban**.
- (2) The county had an increase of at least 15.00% **in total population during the period** covered by the two most recent Census of Population.
- (3) The county has a population **density** of at least 50 persons per square mile.

(b) Criteria of Integration.

- (1) At least 15.00% of the employed workers living in the county work in the central county or counties of the area, or
- (2) The number of people working in the county who live in the central county or counties of the area is at least 15.00% of the employed workers living in the county, or
- (3) The sum of workers **commuting** to and from the central county or counties is equal to 20.00% of the employed workers living in the county.

From this the following all-inclusive and non-overlapping groupings of the entire state population were established. These groups, referred to as Community Types, are as follows:

- 1. Metropolitan — Municipalities of over 250,000 population.

- 2. Cities — Municipalities of 50,000 to 250,000 population.
- 3. Suburban — Municipalities under 50,000 and unincorporated jurisdictions in SMSA counties.
- 4. Non-Suburban — Incorporated jurisdictions under 50,000 in non SMSA counties.
- 5. Rural — Unincorporated jurisdictions in non SMSA counties.

These five major Community Types can be compared directly, one against the other, or further reduced to their lowest common population grouping, to compare each Community Type internally. This method of grouping population entities fits well with the system used by the FBI in dividing the population types in the United States, and provides a common base for development of all future statistics on crime information. Although the primary emphasis of all future crime analysis will be made on the basis of the five Community Types, there will be occasions when other population groupings will more readily fit the analysis criteria. Generally speaking, these additional needs can be met by dividing the state into zones, based on a social and economic likeness of individuals within, and then splitting these groups into Community Types or counties for the final analysis. It is felt that additional research may reveal additional or more precise grouping patterns.

CLASSIFICATION AND LISTING OF UCR OFFENSES

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of Florida law enforcement agencies. They consist of the following offenses:

- 1A. **Murder**—The willful (nonnegligent) killing of a human being.
- 1B. **Manslaughter**—The killing of a human being by the act, procurement or culpable negligence of another.
- 2. **Forcible Rape**—The carnal knowledge of a female forcibly and against her will.
- 3. **Robbery**—The felonious and forcible taking of the property of another, against his will, by violence and/or putting him in fear.
- 4. **Aggravated Assault** — An attempt or offer, with unlawful force or violence, to do physical injury to another.

5. **Breaking and Entering — Burglary** — An unlawful entry or attempted forcible entry of any structure to commit a felony or larceny.
6. **Larceny (Except Motor Vehicle Theft)** — The unlawful taking of the property of another with intent to permanently deprive him of ownership.
7. **Motor Vehicle Theft** — The larceny or attempted larceny of a motor vehicle.

Part II offenses are made up of all other crimes not classified as Part I crimes. Information on Part II offenses is reported only when an arrest has been made. Part II crimes for UCR purposes are as follows:

8. **Other Assaults — Not Aggravated** — Assaults and attempted assaults which are simple and minor in nature.
9. **Arson** — Willful or malicious burning with or without intent to defraud. Includes attempts.
10. **Forgery and Counterfeiting** — Making, altering, uttering or possessing, or attempts to make, alter, utter or possess with intent to defraud. Anything false which is made to appear true.
- 11A. **Fraud** — Fraudulent conversion of another's money or property by false pretenses.
- 11B. **Worthless Checks** — Fraudulent conversion through bad checks — excludes forgery and counterfeiting.
12. **Embezzlement** — Misappropriation or misapplication of money or property entrusted to one's care, custody or control.
13. **Stolen Property** — All offenses of buying, receiving and possessing stolen property, as well as all attempts to commit any of these offenses.
14. **Vandalism** — Willful or malicious destruction, injury, disfigurement or defacement of property without consent of the owner or persons having custody or control.
15. **Weapons: Carrying, Possession, etc.** — All violations of regulations or statutes controlling the carrying, using, possessing, furnishing and manufacturing of deadly weapons or silencers and all attempts to commit any of the offenses.
16. **Prostitution and Commercialized Vice** — Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring or transporting women for immoral purposes, and all attempts to commit any of these offenses.
17. **Sex Offenses (Except Forcible Rape, Prostitution and Commercialized Vice)** — Statutory rape, offenses against chastity, common decency, morals and the like. Includes attempts.
18. **Narcotic Drug Laws** — Includes all arrests for violations of State and Local Ordinances specifically those relating to the unlawful possession and sale of narcotic drugs.
19. **Gambling** — Promoting, permitting, or engaging in gambling.

20. **Offenses Against the Family and Children** Non-support, neglect, desertion, or abuse of family and children.
21. **Driving Under the Influence** — Driving or operating any motor vehicle while drunk or under the influence of liquor or drugs.
22. **Liquor Laws** — State or local liquor law violations, except "drunkenness" and "driving under the influence."
23. **Disorderly Intoxication** — Drunk and disorderly.
24. **Disorderly Conduct** — Breach of peace. (Disorderly persons.)
25. **Vagrancy** — Vagabondage, begging, loitering, etc.
26. **All Other Offenses** — All violations of state and local laws except classes 1-25 and 28-29.
27. **Suspicion** — Not reported in Florida.
28. **Curfew and Loitering Laws (Juveniles)** — Offenses relating to local curfew or loitering ordinances, where such laws exist.
29. **Runaway (Juveniles)** — Limited to juveniles taken into protective custody who have run away from the reporting jurisdiction.

EXPANDED DATA COLLECTION PROGRAM

During the past two years, several special data collection programs have been implemented. Two of these programs involve data which is forwarded to the UCR Bureau on a voluntary basis. These programs involve the collection of drug seizure data and agricultural crime information. The third and most recent program to be developed is the victim data collection system.

Enacted legislation in Florida in October, 1979, placed a requirement for mandatory sentencing for convictions based on large quantity possession and sale of various narcotics and other controlled substances. The narcotics drug survey form is a means whereby pertinent data can be collected on specified large volume drug-related offenses to provide input as to the nature and magnitude of these operations in the State of Florida. Seizures are voluntarily reported by all law enforcement agencies within that county. Federal seizures with no local or state participation are not included.

Recent indications show that agricultural crime accompanied by high property losses is increasing, which has resulted in a great concern by state and local law enforcement agencies throughout Florida. The Florida Department of Law Enforcement's UCR Bureau, working in conjunction with the Attorney

General's Ad Hoc Committee on Agriculture Crime, developed a form which requests incident and property data relating solely to agriculture crime. Since almost all agricultural crime occurs in the rural areas of the state, the survey form was sent only to the county sheriff's offices. Agricultural crime data is submitted to the UCR Bureau on a voluntary basis for compilation and analysis.

The newest program developed by the Florida Uniform Crime Reports and Statistics Bureau is the collection of victimization data. Combined efforts of the Bureau of Criminal Justice Planning and Assist-

ance and the Florida Department of Law Enforcement resulted in acquiring a two-phase Law Enforcement Assistance Administration (LEAA) grant to develop and implement a victim data collection system in Florida. Planning and development of this system began in January, 1981, with actual data collection starting in September, 1981. Various victim characteristics are collected on the seven index offenses plus arson, simple assaults, fraud, vandalism and other sex offenses. Victim data is collected from 38 agencies randomly selected to represent a statistically valid data base for the state as a whole. The grant for the data collection project will continue through June, 1982.

Detailed information is provided in separate sections of this publication on the drug seizure and agricultural crime data collection programs.

UCR USAGE

There are inherent limitations in current crime reporting practices. Of primary importance is the question of how much crime is being reported. Law enforcement agencies are only capable of reporting crimes known to them. In many instances, citizens do not report crimes directly to these agencies but may report them to the prosecuting authorities. A considerable volume of crime is not reported to law enforcement agencies because the victims may consider the offenses against them to be of very little consequence; they believe there is nothing the police can do about them; they fear retaliation from offenders or have shared willingly in such offenses as

illegal sex acts, gambling or drug usage. Consequently, information concerning some offenses is never entered in the present statistical reporting system.

Furthermore, only arrest data is submitted on Part II crimes, therefore, current UCR statistics do not necessarily measure the true incidence of crimes or the actual economic loss incurred by victims.

Crimes and arrests should not be compared on a one-to-one basis, as a crime is an event and an arrest relates to an individual. For example, several crimes may be solved by one arrest or many persons can be arrested for committing one crime.

Crime clearances, the value of property stolen and recovered, and arrests, reflect the current year's activity and will include data related to crimes reported in prior years.

SUMMARY

Set forth below are some additional conditions which will, by type and volume, affect the crime that occurs from place to place. These same conditions will also affect the amount of crime actually reported.

1. Density and size of the community population and the metropolitan area of which it is a part.
2. Composition of the population with reference particularly to age, sex, and race.
3. Economic status and mores of the population.
4. Relative stability of population including commuters, seasonal, and other transient types.
5. Climate, including seasonal weather conditions.
6. Educational, recreational, and religious characteristics.
7. Effective strength of the police force.
8. Standards governing appointment to the police force.
9. Policies of the prosecuting officials and the courts.
10. Attitude of the public towards law and enforcement problems.
11. The administrative and investigative efficiency of the local law enforcement agency including the degree of adherence to crime reporting standards.

Florida Offense Data Index Crime Analysis

1981 FLORIDA CRIME SUMMARY AND PRESS RELEASE

On March 30, 1982, the Florida Department of Law Enforcement released its tenth Annual Florida Uniform Crime Report, reflecting a general overview of reported crime and related data during 1981.

CRIME VOLUME

The volume of reported index crimes (Violent: Murder, Rape, Robbery, Aggravated Assault; Non-violent: Breaking and Entering—Burglary, Larceny and Motor Vehicle Theft) increased 1.6 percent from 1980.

- Total Volume 816,439 Index Crimes
- Time Frequency 1 Index Crime every 39 Seconds
- Population Frequency 1 Index Crime for every 12 Residents
- Highest Violent 9.8 percent increase in Murder
- Highest Nonviolent 1.7 percent increase in Larceny

*CRIME RATE

The 1981 crime rate increased to 80.9 index crimes for every 1,000 residents.

- Violent Crime Rate decreased to 9.7 index crimes/1,000 residents
- Nonviolent Crime Rate decreased to 71.1 index crimes/1,000 residents

**MODIFIED CRIME RATE

The 1981 modified crime rate was 79.9 index crimes for every 1,000 residents.

- Violent Modified 9.6 index crimes/1,000 residents
- Nonviolent Modified 70.3 index crimes/1,000 residents

STANDARD METROPOLITAN STATISTICAL AREAS (SMSA) (see page 5 for definition)

- SMSA
 - Total Index Crime 1.4 percent increase
 - Violent Index Crime 3.9 percent increase
 - Nonviolent Index Crime 1.1 percent increase

- Non SMSA
 - Total Index Crime 4.3 percent increase
 - Violent Index Crime 10.1 percent increase
 - Nonviolent Index Crime 3.7 percent increase

COMMUNITY TYPES (see page 6 for definition)

- Metropolitan Community Type
 - Total Index Crime 3.4 percent increase
 - Violent Index Crime 5.2 percent increase
 - Nonviolent Index Crime 3.0 percent increase
- City Community Type
 - Total Index Crime 0.8 percent increase
 - Violent Index Crime 2.4 percent increase
 - Nonviolent Index Crime 0.6 percent increase
- Suburban Community Type
 - Total Index Crime 1.2 percent increase
 - Violent Index Crime 3.8 percent increase
 - Nonviolent Index Crime 0.9 percent increase
- Non-Suburban Community Type
 - Total Index Crime 7.9 percent increase
 - Violent Index Crime 21.6 percent increase
 - Nonviolent Index Crime 6.5 percent increase
- Rural Community Type
 - Total Index Crime 1.7 percent increase
 - Violent Index Crime 2.0 percent increase
 - Nonviolent Index Crime 1.7 percent increase

ARSON

- Total volume reported 3,851 offenses
- Value of Property Destroyed \$29,448,686
- Most Frequent Location single occupancy, residential

*Rates do not include tourist population totals.

**Refer to page 12 for explanation of modified crime rate.

POPULATION

Florida's population increased 5.4 percent in 1981. This reflected a populated density of nearly 187 people per square mile.

- SMSA Population 5.3 percent increase
- Non SMSA Population 6.0 percent increase

VALUE OF PROPERTY STOLEN

The dollar loss of reported property stolen reveals a 13.4 percent increase to a total of \$605,544,581. Law enforcement agencies recovered 19.7 percent of the loss, or \$119,464,079.

CLEARANCE RATE

- Index Crime Clearance Volume 170,710 Crimes Cleared
- Total Index Clearance Rate 20.9 percent
- Violent Index Crime Clearance Rate 46.6 percent
- Nonviolent Index Crime Clearance Rate 17.4 percent

ARRESTS

Criminal arrests in Florida increased 6.5 percent.

- Index Crime Arrests 0.4 percent increase
- Index Crime Arrests Volume 138,873
- Total Arrest Volume 463,454
- Narcotic drug law violation arrests 8.6 percent increase
- Age Breakdown of Total Arrests
 - Under age of 15 5.8 percent
 - Under age of 18 18.0 percent
 - Under age of 21 32.7 percent
 - Under age of 25 50.1 percent
- Adult Arrests
 - Total Arrests 11.7 percent increase
 - Part I Offense Arrests 7.8 percent increase
 - Part II Offense Arrests 13.1 percent increase
- Juvenile Arrests
 - Total Arrests 12.3 percent decrease
 - Part I Offense Arrests 12.0 percent increase
 - Part II Offense Arrests 12.6 percent decrease

LAW ENFORCEMENT OFFICERS KILLED

There were six Florida Law Enforcement officers killed in the line of duty during 1981.

LAW ENFORCEMENT OFFICERS ASSAULTED

- Total Assaults 13.6 percent decrease
- Total Volume of Assaults 5,438
- Percent of Assaults with Personal Injury 24.6 percent
- Percent Assaults without Personal Injury 75.4 percent

RATIO OF LAW ENFORCEMENT EMPLOYEES

As of October 31, 1981, the number of full-time law enforcement employees (sworn and civilian) in Florida increased 7.4 percent over 1980 to 28,504. In 1981, there were 19,499 sworn officers in Florida; the rate per 1,000 residents was 1.9 sworn officers, reflecting no change over the 1980 rate. This does not include state law enforcement or campus police employees.

*DRUG SEIZURES

- Total Seizures 475
- Total Amount Seized 356.6 tons
- Total Arrests 978
- Property Confiscated \$9,598,684

**AGRICULTURAL CRIME

- Total Volume 1,138
- Highest Targeted Area Equipment
- Most Frequent Type of Crime Thefts
- Total Property Loss \$1,828,676

*Drug seizure data is reported voluntarily by local law enforcement agencies and does not include seizures made exclusively by Federal agencies.

**Agricultural crime is reported voluntarily by County Sheriff Offices. Comparable data not available for prior years.

MODIFIED CRIME RATES USING TOURIST POPULATION DATA

Since 1930, when the Uniform Crime Reports program was undertaken, the method used to try to display crime data in an equitable manner has been based on the population of an agency's jurisdiction. The rates as calculated, provide agencies with the capability of measuring the current magnitude of the crime problem that exists in their jurisdiction, as it relates to the number of people living there.

These rates do not take into account the variety of other factors which will cause changes in reported crime from location to location. Tourism, as an example, is a major industry in Florida; however, the tourist population is not included in census counts or the crime rate.

At the present time, no accurate method is available for determining where these individuals are located and how long their visit will be. Thus, rates including tourists cannot be calculated for individual law enforcement jurisdictions. However, it is obvious that certain events and attractions bring a large influx of visitors to various communities at different periods of time. For example, Volusia County has a large volume of people in the county during the Daytona 500 Automobile Race and the college spring break. Fort Lauderdale has large numbers of persons during Easter and spring breaks. Additionally, with several major attractions in Florida, many people visit other areas at different times. There also seems to be a seasonal trend in visiting these areas, with the highest percentage of tourists coming to Florida from January

through March.*

Another group of transient persons that has had a significant effect on Florida's population are the Haitians and Cubans who have recently entered the United States. This problem, for the most part, is centered in southern Florida, particularly in Dade County.

Further study and research is being conducted in the use of tourist population data in computing modified rates for various aspects of crime in Florida. If further research shows that it is possible to obtain transient figures for specific locales, modified rates may be calculated for individual agencies throughout the state for inclusion in future editions of the annual report, Crime In Florida.

This year, the modified rate has been expanded so that each county can be shown. These rates are shown on the next page along with other data.

To calculate the standard crime rate, the number of index offenses is divided by a particular county's population and then multiplied by 100,000. This gives a crime rate per 100,000 persons. For obtaining a modified crime rate, the only difference is that the daily average of tourists is added to a particular county population. The computation for the modified rate is then made in the same manner as the conventional crime rate. The arrest rate is calculated similarly, except that the number of arrests is used.

¹ This is the standard crime rate as calculated historically and shown elsewhere in this publication. It includes all reporting jurisdictions in each county and the associated total population.

² This represents the annual number of estimated tourists visiting each county in 1980 based on data provided by the Florida Division of Tourism. The 1981 tourist data was not available for publication deadlines of Crime in Florida.

³ Data in this column are prepared by dividing the total number of tourists by 365 to arrive at an average number per day.

⁴ The average daily number of tourists is added to the population and then the modified crime rate is calculated in the manner as explained on the previous page.

⁵ Signifies Walt Disney World area.

FLORIDA CRIME INDEX

The figures presented in the tables, graphs, and charts in this publication indicate the volume, fluctuation and distribution of crime in Florida on the basis of a Crime Index. These crime figures are categorized by municipal, county, statewide, SMSA and Judicial Circuit totals. The seven offenses comprising the Index Crimes are:

- Murder
- Forcible Rape
- Robbery
- Aggravated Assault
- Breaking and Entering — Burglary
- Larceny
- Motor Vehicle Theft

These crimes were selected for use as an Index on the basis of their serious nature, their frequency of occurrence and the reliability of reporting from citizens to law enforcement agencies. The Crime Index is used as a basic measure of crime. The Crime Index is the total number of Index Crimes that come to the attention of law enforcement agencies. During the year 1981, a total of 816,439 index offenses was reported. This represents an increase of 12,930 offenses, or a 1.6 percent increase from 1980.

In reviewing crime index figures the reader should keep in mind that there is currently no way of determining the total number of actual crimes committed. The Crime Index has been established to measure only the instances of crime which come to the attention of law enforcement agencies. However, to be a true index, its relationship to total crime reported or unreported must be known. This relationship unfortunately has never been conclusively established and therefore, fluctuations in the Crime Index may or may not adequately reflect changes in the total crime picture. It is important to remember in reviewing the tables and graphs in this report that the volume of crime in a given area or municipality is directly related to the crime factors previously listed in this report.

VOLUME AND DISTRIBUTION OF CRIME INDEX OFFENSES

The Crime Index merely identifies the number of actual incidents known to law enforcement agen-

cies, not the number of criminals who committed them or the number of injuries they caused. The seven Crime Index offenses are grouped into two categories — violent crimes and nonviolent crimes.

Violent Crime

Crimes of violence include murder, forcible rape, robbery and aggravated assault. Violent crimes involve the element of personal confrontation between perpetrator and victim and because of their very nature, are more serious than non-violent crimes. These offenses for the year 1981 made up 12.0 percent of all reported index offenses. For the year 1981 violent crimes as a group rose 4.3 percent from 1980.

Nonviolent Crime

For Uniform Crime Reports purposes, nonviolent crimes include the offenses of breaking and entering — burglary, larceny, and motor vehicle theft. The number of nonviolent crimes reported for 1981 was more than 7 times the number of violent crimes, amounting to 88.0 percent of all Index Crimes reported. Nonviolent crimes as a group recorded an increase of 1.3 percent from the number reported for the year 1980.

VALUE OF PROPERTY STOLEN AND RECOVERED

Supplementary data relating to the crimes of murder, forcible rape, robbery, breaking and entering — burglary, larceny and motor vehicle theft is collected and analyzed. The resultant figures provide information concerning the value of property stolen and recovered by type of property. The total value of property stolen in Florida during 1981 was \$605,544,581. This amounts to an increase of \$71,492,793, or an increase of 13.4 percent from the year 1980. Law enforcement agencies were successful in recovering 19.7 percent of the loss or \$119,469,079. Locally stolen motor vehicles accounted for the highest dollar loss, amounting to \$172,252,774 for 1981. This figure represents an increase of 14.3 percent from 1980.

CRIME RATES*

The crime rate equals the number of Index Crimes per unit of population, generally per 100,000. It should be noted that the crime rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given community. The effect of changes in population on rates should be kept in mind when attempting to make a comparison of crime rates.

The Crime Index rate for Florida for the year 1981 is 8,085.4 offenses per 100,000 inhabitants, a 3.6 percent decrease from the year 1980.

For the year 1981, violent crimes accounted for 971.4 offenses per 100,000 population, while the nonviolent crime rate amounted to 7,113.9 offenses per 100,000 population, reflecting a rate decrease of 1.1 percent for violent crimes and a 3.9 percent decrease for nonviolent crimes.

CLEARANCE RATES

For crime reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender.

For 1981, 20.9 percent of all Index Crimes were cleared. The percentage of violent crimes cleared was 46.6 percent, while the clearance rate for non-violent crimes was 17.4 percent. This compares with a 1980 total clearance rate of 20.7 percent and violent crime and nonviolent crime clearance rates of 46.7 and 17.2 percent, respectively.

NON-INDEX OFFENSES

Three offense classifications of reported crime do not fall into the makeup of the Index Crimes. These offenses are manslaughter by negligence, nonaggravated assault and arson. In 1981 there were 25 non-traffic manslaughters by negligence; 24 of the total non-traffic manslaughters were cleared by arrest or exceptionally cleared.

There were 69,658 non-aggravated assaults reported for the year 1981 in Florida. Of these offenses, 43,479 or 62.4 percent were cleared by arrest or by exception. Of these 43,479 total clearances, 90.8 percent were cleared through the involvement of persons aged 18 and above, while the other 9.2 percent involved persons aged 17 and under.

During 1981, there were 3,851 offenses of arson reported with \$29,448,686 in property damage. The highest single category of arson, 1,059 reported, was single occupancy residential. Of the 3,851 arsons reported, only 549 or 14.3% were arsons of abandoned structures. The clearance rate for arson was 19.1%. There were 1,427 reported arsons of all types of residences, 922 of commercial structures and 1,113 of motor vehicles. The remaining 389 arsons were of other structures, other mobile property and miscellaneous.

*Rates do not include transient population totals.

MURDER

Murder is defined as the willful (nonnegligent) killing of a human being. Any death due to a fight, argument, quarrel, assault or commission of a crime is included. This index offense is scored by law enforcement officials on the basis of their investigation without regard to findings of a court or jury or the decision of a prosecutor. Attempts to kill and assaults to kill are scored as assaults and not as murder. Suicides, accidental deaths, and justifiable or excusable homicides are also excluded.

1979 — SUMMARY ANALYSIS

A total of 1,084 murders was reported by law enforcement agencies in Florida for the year 1979.

Murders accounted for 1.5 percent of all violent crimes and 0.2 percent of all index offenses reported.

The murder rate for the reporting period was 11.7 per 100,000 population.

There were 773 murders cleared by arrest or exceptionally cleared, amounting to a 71.3 percent clearance rate statewide.

The age group 25-29 accounted for 18.1 percent of persons arrested for murder. Males accounted for 83.5 percent of all persons arrested for murder.

Of all persons arrested for murder, 51.3 percent were white, 48.3 percent were black and 0.4 percent were of other races.

Of all murder victims, 57.5 percent were white, 42.4 percent were black and 0.1 percent of other races were murdered. Of all murder victims, males represented 73.3 percent.

Firearms were employed in 60.0 percent of all reported murders. The use of a knife or other cutting device was involved in 17.2 percent of the murders.

The murder of one family member by another accounted for 193 or 17.8 percent of all murders. Of these, 116 murders or 60.1 percent resulted from one spouse killing the other.

Altercations or quarrels between the victim and perpetrator, including money quarrels, lovers quarrels and drinking quarrels, accounted for 23.3 percent of all murders reported during the year 1979. Lovers quarrels recorded the highest involvement, accounting for 9.7 percent of the total murders.

1980 — SUMMARY ANALYSIS

A total of 1,387 murders was reported by law enforcement agencies in Florida for the year 1980.

Murders accounted for 1.5 percent of all violent crimes and 0.2 percent of all index offenses reported.

The murder rate for the reporting period was 14.5 per 100,000 population.

There were 898 murders cleared by arrest or exceptionally cleared, amounting to a 64.7 percent clearance rate statewide.

The age group 25-29 accounted for 18.7 percent of persons arrested for murder. Males accounted for 87.6 percent of all persons arrested for murder.

Of all persons arrested for murder, 50.1 percent were white, 49.2 percent were black and 0.7 percent were of other races.

Of all murder victims, 57.9 percent were white, 41.3 percent were black and 0.8 percent of other races were murdered. Of all murder victims, males represented 76.4 percent.

Firearms were employed in 60.5 percent of all reported murders. The use of a knife or other cutting device was involved in 18.4 percent of the murders.

The murder of one family member by another accounted for 190 or 13.7 percent of all murders. Of these, 114 murders or 60.0 percent resulted from one spouse killing the other.

Altercations or quarrels between the victim and perpetrator, including money quarrels, lovers quarrels and drinking quarrels, accounted for 20.6 percent of all murders reported during the year 1980. Lovers quarrels recorded the highest involvement, accounting for 9.2 percent of the total murders.

1981 — SUMMARY ANALYSIS

A total of 1,523 murders was reported by law enforcement agencies in Florida for the year 1981.

Murders accounted for 1.6 percent of all violent crimes and 0.2 percent of all index offenses reported.

The murder rate for the reporting period was 15.1 per 100,000 population.

There were 932 murders cleared by arrest or exceptionally cleared, amounting to a 61.2 percent clearance rate statewide.

The age group 25-29 accounted for 20.3 percent of persons arrested for murder. Males accounted for 86.8 percent of all persons arrested for murder.

Of all persons arrested for murder, 55.6 percent were white, 44.2 percent were black and 0.3 percent were of other races.

Of all murder victims, 60.1 were white, 38.8 percent were black and 1.1 percent of other races were murdered. Of all murder victims, males represented 77.0 percent.

Firearms were employed in 58.4 percent of all reported murders. The use of a knife or other cutting device was involved in 14.6 percent of the murders.

The murder of one family member by another accounted for 183 or 12.0 percent of all murders. Of these, 110 murders or 60.1 percent resulted from one spouse killing the other.

Altercations or quarrels between the victim and perpetrator, including money quarrels, lovers quarrels and drinking quarrels, accounted for 16.2 percent of all murders reported during the year 1981. Lovers quarrels recorded the highest involvement, accounting for 8.1 percent of the total murders.

FDLE TABLE

FORCIBLE RAPE

Forcible rape is the carnal knowledge of a female forcibly and against her will. For the purposes of Uniform Crime Reports rape is divided into two categories: (1) rape by force; and (2) attempted rapes. Carnal abuse without force (statutory rape), and other sex offenses are not counted.

1979 — SUMMARY ANALYSIS

A total of 4,573 forcible rapes (including attempts) was reported by law enforcement agencies in Florida for the year 1979. Of all rapes, 3,541 were by force and 1,032 were attempted rapes.

Forcible rapes accounted for 10.4 percent of all violent crimes and 0.7 percent of all index offenses reported.

The forcible rape rate for the year 1979 amounted to 49.5 rapes for every 100,000 persons in the state.

There were 2,350 forcible rapes cleared by arrest or exceptionally cleared, amounting to a 51.4 percent clearance rate statewide.

Of the reported arrests for forcible rape during the year 1979, 52.8 percent were of persons under the age of 25.

Of all persons arrested for forcible rape during the year 1979, 53.8 percent were white, 45.8 percent were black and 0.4 percent were of other races.

1980 — SUMMARY ANALYSIS

A total of 5,435 forcible rapes (including attempts) was reported by law enforcement agencies in Florida for the year 1980. Of all rapes, 4,230 were by force and 1,205 were attempted rapes.

Forcible rapes accounted for 5.8 percent of all violent crimes and 0.7 percent of all index offenses reported.

The forcible rape rate for the year 1980 amounted to 56.7 rapes for every 100,000 persons in the state.

There were 2,611 forcible rapes cleared by arrest or exceptionally cleared, amounting to a 48.0 percent clearance rate statewide.

Of the reported arrests for forcible rape during the year 1980, 50.4 percent were of persons under the age of 25.

Of all persons arrested for forcible rape during the year 1980, 53.0 percent were white, 46.6 percent were black and 0.4 percent were of other races.

1981 — SUMMARY ANALYSIS

A total of 5,707 forcible rapes (including attempts) was reported by law enforcement agencies in Florida for the year 1981. Of all rapes, 4,460 were by force and 1,247 were attempted rapes.

Forcible rapes accounted for 5.8 percent of all violent crimes and 0.7 percent of all index offenses reported.

The forcible rape rate for the year 1981 amounted to 56.5 rapes for every 100,000 persons in the state.

There were 2,738 forcible rapes cleared by arrest or exceptionally cleared, amounting to a 48.0 percent clearance rate statewide.

Of the reported arrests for forcible rape during the year 1981, 49.2 percent were of persons under the age of 25.

Of all persons arrested for forcible rape during the year 1981, 51.5 percent were white, 48.3 percent were black and 0.3 percent were of other races.

FDLE TABLE

ROBBERY

Robbery is the felonious and forcible taking of the property of another, against his will, by violence or putting the person in fear. For a crime of robbery to take place, the victim must be present. Robbery is further separated into two categories: (1) Armed Robbery — any weapon. Any object which is so employed as to constitute force or threat of force is considered a weapon; and (2) Strong-arm — no weapon (includes muggings and similar offenses where no weapon is used and strong-arm tactics are employed to deprive the victim of his property. This is limited to hands, feet, arms, fists, etc.).

1979 — SUMMARY ANALYSIS

A total of 22,097 robberies was reported by law enforcement agencies in the State of Florida for the year 1979.

Robberies accounted for 29.9 percent of all violent crimes as a group and 3.2 percent of the total crime index.

The robbery rate amounted to approximately 239.0 robberies for every 100,000 persons in the state.

There were 6,200 robberies cleared by arrest or exceptionally cleared, representing a clearance rate of 28.1 percent statewide.

The age group 25-29 accounted for 13.2 percent of persons arrested for robbery. Males accounted for 92.6 percent of all persons arrested for robbery.

Of all persons arrested for robbery, 44.8 percent were white, 55.0 percent were black and 0.2 percent were of other races.

The largest number of actual offenses of robbery, 10,502 in number, occurred under the Highway category, which represents 47.5 percent of all offenses of robbery reported during 1979. The armed robber was responsible for over 55.7 percent of the reported offenses.

The value of property stolen in actual offenses of robbery totaled \$15,110,522 or 4.4 percent of the total value of property stolen during the year. The highest average loss, amounting to \$5,552 occurred in bank robberies. The lowest average loss, \$172, occurred in convenience store robberies.

1980 — SUMMARY ANALYSIS

A total of 34,015 robberies was reported by law enforcement agencies in the State of Florida for the year 1980.

Robberies accounted for 36.2 percent of all violent crimes as a group and 4.2 percent of the total crime index.

The robbery rate amounted to approximately 355.1 robberies for every 100,000 persons in the state.

There were 7,507 robberies cleared by arrest or exceptionally cleared, representing a clearance rate of 22.1 percent statewide.

The age group 25-29 accounted for 14.4 percent of persons arrested for robbery. Males accounted for 92.7 percent of all persons arrested for robbery.

Of all persons arrested for robbery, 43.3 percent were white, 56.6 percent were black and 0.1 percent were of other races.

The largest number of actual offenses of robbery, 17,779 in number, occurred under the Highway category, which represents 52.3 percent of all offenses of robbery reported during 1980. The armed robber was responsible for over 55.1 percent of the reported offenses.

The value of property stolen in actual offenses of robbery totaled \$26,480,024 or 5.0 percent of the total value of property stolen during the year. The highest average loss, amounting to \$4,511 occurred in bank robberies. The lowest average loss, \$203, occurred in convenience store robberies.

1981 — SUMMARY ANALYSIS

A total of 35,470 robberies was reported by law enforcement agencies in the State of Florida for the year 1981.

Robberies accounted for 36.2 percent of all violent crimes as a group and 4.3 percent of the total crime index.

The robbery rate amounted to approximately 351.3 robberies for every 100,000 persons in the state.

There were 7,860 robberies cleared by arrest or exceptionally cleared, representing a clearance rate of 22.2 percent statewide.

The age group 25-29 accounted for 16.4 percent of persons arrested for robbery. Males accounted for 93.2 percent of all persons arrested for robbery.

Of all persons arrested for robbery, 42.0 percent were white, 57.9 percent were black and 0.1 percent were of other races.

The largest number of actual offenses of robbery, 17,669 in number, occurred under the Highway category, which represents 49.8 percent of all offenses of robbery reported during 1981. The armed robber was responsible for over 42.6 percent of the reported offenses.

The value of property stolen in actual offenses of robbery totaled \$36,152,286 or 6.0 percent of the total value of property stolen during the year. The highest average loss, amounting to \$4,717 occurred in bank robberies. The lowest average loss, \$232, occurred in convenience store robberies.

FDLE TABLE

AGGRAVATED ASSAULT

Assault is defined as an attempt or offer with unlawful force or violence, to do physical injury to another. An aggravated assault may be committed by a gun, knife, or other cutting instrument, other dangerous weapons such as clubs, or through the aggravated use of hands, fists, or feet. Assault with intent to commit a murder is also reported as aggravated assault.

All assaults, where no weapon is used, which result in minor injuries are classified as non-aggravated assaults and are not counted in the Crime Index totals.

1979 — SUMMARY ANALYSIS

A total of 46,112 aggravated assaults was reported by law enforcement agencies for the year 1979.

Aggravated assaults accounted for 62.4 percent of all violent crimes and 6.8 percent of all index crimes reported.

The rate of aggravated assaults amounted to 498.8 assaults for each 100,000 persons.

There were 30,881 aggravated assaults cleared by arrest or exceptionally cleared which represents a clearance rate of 67.0 percent statewide.

Persons under the age of 30 accounted for 63.5 percent of the arrests for aggravated assault. Arrests of males for aggravated assault outnumbered females by a 5 to 1 margin.

Analysis of aggravated assault arrests by race indicates that 56.6 percent of all persons arrested were white, 43.2 percent were black and 0.2 percent were of other races.

The use of firearms represented 12,331 offenses and comprised 26.7 percent of all aggravated assaults.

1980 — SUMMARY ANALYSIS

A total of 53,251 aggravated assaults was reported by law enforcement agencies for the year 1980.

Aggravated assaults accounted for 56.6 percent of all violent crimes and 6.6 percent of all index crimes reported.

The rate of aggravated assaults amounted to 555.9 assaults for each 100,000 persons.

There were 32,944 aggravated assaults cleared by arrest or exceptionally cleared which represents a clearance rate of 61.9 percent statewide.

Persons under the age of 30 accounted for 63.6 percent of the arrests for aggravated assault. Arrests of males for aggravated assault outnumbered females by a 6 to 1 margin.

Analysis of aggravated assault arrests by race indicates that 58.3 percent of all persons arrested were white, 41.5 percent were black and 0.2 percent were of other races.

The use of firearms represented 15,508 offenses and comprised 29.1 percent of all aggravated assaults.

1981 — SUMMARY ANALYSIS

A total of 55,390 aggravated assaults was reported by law enforcement agencies for the year 1981.

Aggravated assaults accounted for 56.5 percent of all violent crimes and 6.8 percent of all index crimes reported.

The rate of aggravated assaults amounted to 548.5 assaults for each 100,000 persons.

There were 34,191 aggravated assaults cleared by arrest or exceptionally cleared which represents a clearance rate of 61.7 percent statewide.

Persons under the age of 30 accounted for 61.9 percent of the arrests for aggravated assault. Arrests of males for aggravated assault outnumbered females by a 6 to 1 margin.

Analysis of aggravated assault arrests by race indicates that 58.2 percent of all persons arrested were white, 41.6 percent were black and 0.2 percent were of other races.

The use of firearms represented 17,027 offenses and comprised 30.7 percent of all aggravated assaults.

FDLE TABLE

BREAKING AND ENTERING—BURGLARY

Breaking and Entering — Burglary is any unlawful entry or attempted forcible entry of a structure to commit a felony or a theft, even though force may not be used to gain entrance.

Breaking and Entering — Burglary is divided into three categories: (1) Forcible entry, (2) Unlawful entry — no force, and (3) Attempted forcible entry.

1979 — SUMMARY ANALYSIS

A total of 190,848 burglaries was reported by law enforcement agencies for the year 1979.

Burglaries accounted for 31.4 percent of all nonviolent crimes and 28.0 percent of all index offenses reported.

The burglary rate for the reporting period was 2,064.3 per 100,000 population.

There were 33,993 burglaries cleared by arrest or exceptionally cleared. This amounts to a clearance rate of 17.8 percent statewide.

The age group accounting for the highest percentage of persons arrested for burglary, 10.7 percent, occurred in the age 16 category. Males accounted for 93.6 percent of persons arrested for burglary.

Of all persons arrested for burglary, 66.5 percent were white, 33.4 percent were black and 0.1 percent were of other races.

Of the three categories of burglary, forcible entry was the most prevalent, with 145,085 offenses. This figure represents 76.0 percent of the total burglaries committed. Unlawful entry (no force) accounted for 15.2 percent, while 8.7 percent were attempts.

The value of property stolen in actual offenses of burglary totaled \$110,443,398 or 32.4 percent of the total value of property stolen during the year.

Residential burglaries accounted for 61.5 percent of the total offenses reported, with a total dollar loss of \$70,961,514. Where time could be determined, 45.1 percent of residential burglaries occurred during the night hours.

1980 — SUMMARY ANALYSIS

A total of 239,782 burglaries was reported by law enforcement agencies for the year 1980.

Burglaries accounted for 33.8 percent of all nonviolent crimes and 29.8 percent of all index offenses reported.

The burglary rate for the reporting period was 2,503.1 per 100,000 population.

There were 38,145 burglaries cleared by arrest or exceptionally cleared. This amounts to a clearance rate of 15.9 percent statewide.

The age group accounting for the highest percentage of persons arrested for burglary, 10.4 percent, occurred in the age 17 category. Males accounted for 94.0 percent of persons arrested for burglary.

Of all persons arrested for burglary, 65.7 percent were white, 34.1 percent were black and 0.2 percent were of other races.

Of the three categories of burglary, forcible entry was the most prevalent, with 185,880 offenses. This figure represents 77.5 percent of the total burglaries committed. Unlawful entry (no force) accounted for 14.3 percent, while 8.2 percent were attempts.

The value of property stolen in actual offenses of burglary totaled \$207,421,483 or 38.8 percent of the total value of property stolen during the year.

Residential burglaries accounted for 64.8 percent of the total offenses reported, with a total dollar loss of \$146,516,154. Where time could be determined, 42.3 percent of residential burglaries occurred during the night hours.

1981 — SUMMARY ANALYSIS

A total of 241,489 burglaries was reported by law enforcement agencies for the year 1981.

Burglaries accounted for 33.6 percent of all nonviolent crimes and 29.6 percent of all index offenses reported.

The burglary rate for the reporting period was 2,391.5 per 100,000 population.

There were 38,234 burglaries cleared by arrest or exceptionally cleared. This amounts to a clearance rate of 15.8 percent statewide.

The age group accounting for the highest percentage of persons arrested for burglary, 10.4 percent, occurred in the 25-29 age category. Males accounted for 93.8 percent of persons arrested for burglary.

Of all persons arrested for burglary, 66.5 percent were white, 33.4 percent were black and 0.2 percent were of other races.

Of the three categories of burglary, forcible entry was the most prevalent, with 186,177 offenses. This figure represents 77.1 percent of the total burglaries committed. Unlawful entry (no force) accounted for 14.2 percent, while 8.7 percent were attempts.

The value of property stolen in actual offenses of burglary totaled \$219,293,661 or 36.2 percent of the total value of property stolen during the year.

Residential burglaries accounted for 5.1 percent of the total offenses reported, with a total dollar loss of \$147,731,914. Where time could be determined, 42.8 percent of residential burglaries occurred during the night hours.

FDLE TABLE

LARCENY

Larceny is the taking of the personal property of another with intent to permanently deprive him of ownership.

All larcenies and thefts resulting from pocket picking, purse snatching, shoplifting, larceny from a motor vehicle, larceny of motor vehicle parts and accessories, theft of bicycle, larceny from buildings and from any coin operated machines are included in this category. Embezzlements, illegal conversions, larceny by a bailee, frauds or bad check cases are not included.

1979 — SUMMARY ANALYSIS

A total of 377,896 larcenies was reported by law enforcement agencies for the year 1979.

Reported larcenies accounted for 62.3 percent of nonviolent crimes and 55.5 percent of all index offenses reported.

The larceny rate for Florida for the year amounted to 4,087.5 per 100,000 population.

There were 69,820 larcenies cleared by arrest or exceptionally cleared. This represents a clearance rate of 18.5 percent statewide.

The age group of 25 to 29 years was responsible for 8.8 percent of persons arrested for larceny. Males accounted for 68.1 percent of persons arrested for all categories of larceny.

Of all persons arrested for larceny, 67.3 percent were white, 32.4 percent were black and 0.2 percent were of other races.

During the year 1979, the value of property stolen in actual offenses of larceny totaled \$106,707,831. This constitutes 31.3 percent of the total value of property stolen.

1980 — SUMMARY ANALYSIS

A total of 423,962 larcenies was reported by law enforcement agencies for the year 1980.

Reported larcenies accounted for 59.8 percent of nonviolent crimes and 52.8 percent of all index offenses reported.

The larceny rate for Florida for the year amounted to 4,425.7 per 100,000 population.

There were 75,636 larcenies cleared by arrest or exceptionally cleared. This represents a clearance rate of 17.8 percent statewide.

The age group of 25 to 29 years was responsible for 10.1 percent of persons arrested for larceny. Males accounted for 69.8 percent of persons arrested for all categories of larceny.

Of all persons arrested for larceny, 66.2 percent were white, 33.5 percent were black and 0.3 percent were of other races.

During the year 1980, the value of property stolen in actual offenses of larceny totaled \$157,595,760. This constitutes 29.5 percent of the total value of property stolen.

1981—SUMMARY ANALYSIS

A total of 431,153 larcenies was reported by law enforcement agencies for the year 1981.

Reported larcenies accounted for 60.0 percent of nonviolent crimes and 52.8 percent of all index offenses reported.

The larceny rate for Florida for the year amounted to 4,269.8 per 100,000 population.

There were 78,424 larcenies cleared by arrest or exceptionally cleared. This represents a clearance rate of 18.2 percent statewide.

The age group of 25 to 29 years was responsible for 11.6 percent of persons arrested for larceny. Males accounted for 69.1 percent of persons arrested for all categories of larceny.

Of all persons arrested for larceny, 65.2 percent were white, 34.6 percent were black and 0.2 percent were of other races.

During the year 1981, the value of property stolen in actual offenses of larceny totaled \$186,348,660. This constitutes 30.8 percent of the total value of property stolen.

FDLE TABLE

MOTOR VEHICLE THEFT

Motor vehicle theft is the larceny or attempted larceny of a motor vehicle. This includes all vehicles which can be registered as such in the state. "Joyriding" thefts are included under this category.

1979 — SUMMARY ANALYSIS

A total of 38,286 motor vehicle thefts was reported by law enforcement agencies in Florida during 1979.

Motor vehicle thefts made up 6.3 percent of all nonviolent crime and 5.6 percent of all index offenses reported.

The statewide motor vehicle theft rate for the year amounted to 414.1 per 100,000 population.

There were 7,962 motor vehicle thefts cleared by arrest or exceptionally cleared, representing a clearance rate of 20.8 percent statewide.

The age group responsible for the highest percentage of persons arrested for motor vehicle theft, 13.7 percent, occurred in the 16

year old age category. Of all persons arrested for motor vehicle theft, 91.2 percent were males.

Of all persons arrested for motor vehicle theft, 74.8 percent were white, 25.0 percent were black and 0.1 percent were of other races.

The average value of a motor vehicle theft during the reporting period was \$2,832.

Motor vehicles reported stolen during the commission of any Part I offense totaled \$112,925,340; \$60,973,585 was recovered which constitutes a 54.0 percent recovery rate in value. Of the total number of motor vehicles recovered, 72.2 percent had originally been stolen from the same jurisdiction.

1980 — SUMMARY ANALYSIS

A total of 45,677 motor vehicle thefts was reported by law enforcement agencies in Florida during 1980.

Motor vehicle thefts made up 6.4 percent of all nonviolent crime and 5.7 percent of all index offenses reported.

The statewide motor vehicle theft rate for the year amounted to 476.8 per 100,000 population.

There were 8,399 motor vehicle thefts cleared by arrest or exceptionally cleared, representing a clearance rate of 18.4 percent statewide.

The age group responsible for the highest percentage of persons arrested for motor vehicle theft, 14.0 percent, occurred in the 16

year old age category. Of all persons arrested for motor vehicle theft, 90.7 percent were males.

Of all persons arrested for motor vehicle theft, 71.1 percent were white, 28.7 percent were black and 0.2 percent were of other races.

The average value of a motor vehicle theft during the reporting period was \$3,112.

Motor vehicles reported stolen during the commission of any Part I offense totaled \$150,752,211; \$77,670,960 was recovered which constitutes a 51.5 percent recovery rate in value. Of the total number of motor vehicles recovered, 71.1 percent had originally been stolen from the same jurisdiction.

1981 — SUMMARY ANALYSIS

A total of 45,707 motor vehicle thefts was reported by law enforcement agencies in Florida during 1981.

Motor vehicle thefts made up 6.4 percent of all nonviolent crime and 5.6 percent of all index offenses reported.

The statewide motor vehicle theft rate for the year amounted to 452.6 per 100,000 population.

There were 8,331 motor vehicle thefts cleared by arrest or exceptionally cleared, representing a clearance rate of 18.2 percent statewide.

The age group responsible for the highest percentage of persons arrested for motor vehicle theft, 12.3 percent, occurred in the

25-29 year old category. Of all persons arrested for motor vehicle theft, 91.5 percent were males.

Of all persons arrested for motor vehicle theft, 71.1 percent were white, 28.7 percent were black and 0.2 percent were of other races.

The average value of a motor vehicle theft during the reporting period was \$3,574.

Motor vehicles reported stolen during the commission of any Part I offense totaled \$172,252,774; \$82,479,294 was recovered which constitutes a 47.9 percent recovery rate in value. Of the total number of motor vehicles recovered, 72.9 percent had originally been stolen from the same jurisdiction.

FDLE TABLE

ARSON

Arson — is any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

(Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.)

1980 — SUMMARY ANALYSIS

A total of 3,961 arsons was reported by Florida law enforcement agencies for the year 1980.

The number of arsons committed per 100,000 persons was 41.3.

There were 710 arsons cleared by arrest or exceptionally cleared. This represents a statewide clearance rate of 17.9 percent.

The age group accounting for the highest percentage of persons arrested for arson was the 25-29 bracket with 12.0 percent. Of all persons arrested for arson, 85.5 percent were males.

Of all persons arrested for arson, 78.0 percent were white, 21.7 percent were black and 0.3 percent were of other races.

Of all property classifications, single occupancy residential accounted for the largest number of arsons with 1,089 offenses or 27.5 percent of all arsons. The percentage of arsons involving structures was 63.7 percent as compared to 27.9 percent for mobile property. The remaining percentage involved destruction of crops, timber, signs and other miscellaneous property. Offenses involving uninhabited structures were 683 or 17.2 percent of all arsons.

The value of property damaged by arson totaled \$31,496,922. Other residential consisted of 3.8 percent of the total amount or \$1,201,664. Mobile Property consisted of 7.7 percent of the total amount damaged or \$2,418,452.

1981 — SUMMARY ANALYSIS

A total of 3,851 arsons was reported by Florida law enforcement agencies for the year 1981.

The number of arsons committed per 100,000 persons was 38.1.

There were 737 arsons cleared by arrest or exceptionally cleared. This represents a statewide clearance rate of 19.1 percent.

The age group accounting for the highest percentage of persons arrested for arson was the 25-29 bracket with 13.0 percent. Of all persons arrested for arson, 86.4 percent were males.

Of all persons arrested for arson, 75.2 percent were white, 24.2 percent were black and 0.6 percent were of other races.

Of all property classifications, single occupancy residential accounted for the largest number of arsons with 1,059 offenses or 27.5 percent of all arsons. The percentage of arsons involving structures was 61.0 percent as compared to 28.9 percent for mobile property. The remaining percentage involved destruction of crops, timber, signs and other miscellaneous property. Offenses involving uninhabited structures were 549 or 14.3 percent of all arsons.

The value of property damaged by arson totaled \$29,448,686. Other residential consisted of 5.2 percent of the total amount or \$1,543,757. Mobile Property consisted of 6.6 percent of the total amount damaged or \$1,952,432.

*The offense data reflected in this publication is by geographic jurisdiction and is not intended to depict an individual law enforcement agency's activity. Included in the unincorporated areas are those incorporated jurisdictions who report this information to the law enforcement agency responsible in that geographic jurisdiction. The totals reflect all UCR data submitted on crime activity occurring within that Community Type, except that activity as reported by state law enforcement agencies.

Florida Arrest Data

FLORIDA ARREST INFORMATION

The Florida Uniform Crime Reports Program requires the periodic reporting of data concerning persons arrested in the state. A record of total arrest activity for criminal acts in both Part I and Part II crime classes is received from 335 county and municipal law enforcement agencies in Florida and is analyzed and arranged according to age, sex, race and residency of persons arrested. Traffic arrests, except Driving Under the Influence, are not reported. A total of 463,454 arrests for Part I and Part II criminal acts were reported during the year 1981, up 6.5 percent from the 435,222 arrests reported for the year 1980. Based on 1981 population estimates, this amounts to a statewide arrest rate for the year 1981 of 4,589.7 arrests for each 100,000 persons in Florida.

A person is counted each time he is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. A juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be counted or when law enforcement or other official action beyond a mere interview, warning or admonishment is taken.

When reviewing arrest figures it should be remembered that arrest counts do not reflect the specific number of persons arrested since one individual person may be arrested several times during any given year for the same or different offenses. This occurs frequently for such crimes as disorderly intoxication, disorderly conduct and similar violations. However, arrest data is useful in measuring the extent of law enforcement activity in a given geographical area as well as providing an index for measuring involvement in criminal acts by the age, sex, race and residence of the perpetrators.

Analysis of reported arrests for the year 1981 indicates that 30.0 percent of all arrests during the year were for Part I offenses (murder, manslaughter, forcible rape, robbery, aggravated assault, breaking and entering — burglary, larceny and motor vehicle theft). Arrests for larceny comprised the highest percentage of arrests for Part I crimes, amounting to 48.7 percent. The highest percentage of arrests for Part II offenses,

excluding the all other category, was driving under the influence which constituted 10.4 percent.

VIOLENT CRIME ARRESTS

During the year 32,257 arrests for crimes of violence (murder, forcible rape, robbery and aggravated assault) on a statewide basis amounted to 23.2 percent of all arrests for the Part I offenses and 7.0 percent of the total arrests for all offenses. Arrests for aggravated assault were the most frequent, representing 65.1 percent of the total arrests for violent crimes. During 1980, violent crime arrests amounted to 22.3 percent of all Part I arrests and 7.1 percent of all arrests.

NONVIOLENT CRIME ARRESTS

Nonviolent crime arrests (breaking and entering — burglary, larceny and motor vehicle theft) comprised 76.8 percent of all Part I arrests and 23.0 percent of all arrests reported during the year 1981. The highest percentage of nonviolent crime arrests, 63.5 percent, occurred in the larceny category. During 1980, nonviolent crime arrests amounted to 77.5 percent of all Part I arrests and 24.7 percent of all arrests.

NONRESIDENT ARRESTS

Upon arresting an offender for a criminal violation committed within a community, the responsible law enforcement agency may find that the perpetrator's residence is in another community or even another state. The Florida Uniform Crime Reports Program provides for the collection of residency data of those arrested in order to measure the criminal mobility factor in Florida.

It was found that during 1981, of the total arrests reported by county and municipal law enforcement agencies for their respective jurisdictions, 6.3 percent of those arrested resided outside the state of Florida and 9.3 percent resided in a county (within Florida) other than the one in which the offense was committed.

The total volume of out of state resident arrests for the year 1981 increased by 7.3 percent, while out of county resident arrests increased by 18.2 percent over the year 1980.

The highest percentage of nonresident arrests reported during the year occurred in the motor vehicle theft category for Part I offenses and the liquor law category for Part II offenses, amounting to 19.6 percent and 32.3 percent respectively.

AGE ANALYSIS

The distribution of those persons arrested by age categories during the year 1981 continues to illustrate the involvement in criminal activity by the youth of Florida. Nearly 5.8 percent of all persons arrested for the year were under the age of 15, 18.0 percent were under 18 and 32.7 percent of all persons arrested were under the age of 21.

An evaluation of reported Part I arrests indicates that 32.8 percent of persons arrested for such crimes were under the age of 18. The most frequent Part I juvenile arrests during the year were for larceny amounting to 50.8 percent of the total reported Part I juvenile arrests.

Total juvenile arrests for all offenses decreased by 12.3 percent from the reported figure for the year 1980. Adult arrests showed an increase of 11.7 percent from the figures for the year 1980.

Arrests of persons age 18 and over amounted to 82.0 percent of the total number of Part I and Part II arrests reported. Of the total adult arrests, 19.4 percent occurred in the 25 to 29 age group.

SEX AND RACE ANALYSIS

A percentage distribution by sex of all reported arrests for the year 1981, reveals that 82.9 percent of all persons arrested were male. Males were involved in 80.5 percent of all arrests for Part I offenses, with primary involvement in the crime of larceny. Total male arrests increased by 6.4 percent over the year 1980. The largest increase in male arrests for Part I offenses was registered in the murder category, up 12.3 percent from the year 1980.

Female arrests amounted to 17.1 percent of the total arrests reported and 19.5 percent of all arrests for Part I offenses. Further evaluation of arrest data for Part I offenses discloses that females were primarily involved in arrests for larceny, accounting for 30.9 percent of the total arrests for this offense. Total female arrests increased by 6.8 percent over

the year 1980. Part I female arrests registered the largest increase in the forcible rape category, up 35.3 percent over the year 1980.

An analysis of arrests for violent and nonviolent crime classes for the reporting period shows that 88.6 percent of all reported arrests for the violent crimes of murder, forcible rape, robbery and aggravated assault involved males. Females accounted for 11.4 percent of total violent crime arrests. Female arrests comprised 22.0 percent of the nonviolent crimes of breaking and entering — burglary, larceny and motor vehicle theft, while 78.0 percent of the nonviolent crime arrests for the year involved males.

A distribution analysis of total arrests by race for the year 1981 indicates that 72.7 percent of all arrested persons were white, 27.1 percent were black, with the remaining 0.2 percent of other races.

With regard to violent crimes within the Part I offenses (murder, forcible rape, robbery and aggravated assault), 53.5 percent of those arrested were white, 46.3 percent were black and the remaining 0.2 percent of other races.

A comparison of arrest data for the nonviolent crimes of breaking and entering — burglary, larceny and motor vehicle theft indicates that 65.9 percent of those arrested were white, 33.9 percent were black, with the remaining 0.2 percent of other races.

DISPOSITION OF JUVENILES

The Florida UCR Program requires that contributing agencies provide specific disposition information on all juveniles arrested. The UCR Program specifies five basic information categories for use by law enforcement agencies in reporting juvenile arrest dispositions. Juveniles may be (1) *handled within the department and released*, (2) *referred to juvenile court, juvenile authorities or probation department*, (3) *referred to a welfare agency*, (4) *referred to another law enforcement agency*, or (5) *referred to criminal or adult court*.

During the year 1981, on a statewide basis, approximately 72.3 percent of all juveniles arrested

were referred to juvenile court or probation department, 25.0 percent were handled directly by law enforcement agencies and released, 0.4 per-

cent were referred to welfare agencies, 2.1 percent were referred to criminal or adult court and the remaining 0.2 percent were referred to other law enforcement agencies for disposition.

TOTAL FLORIDA ARRESTS 1981

*The arrest data reflected in this publication is by geographic jurisdiction and is not intended to depict an individual law enforcement agency's activity. Included in the unincorporated areas are those incorporated jurisdictions who report this information to the law enforcement agency responsible in that geographic jurisdiction. The totals reflect all UCR data submitted on crime activity occurring within that Community Type, except that activity as reported by state law enforcement agencies.

Narcotic Drug Law and Gambling Arrests

NARCOTIC DRUG LAW ARRESTS

Information concerning arrests for narcotic drug law violations in collected and analyzed in Florida according to specific drug categories and by sale or possession violations. Evaluation of arrest data reported for the year 1981 disclosed that 34.7 percent of all persons arrested for narcotic drug law violations were under the age of 21. Persons under age 18 accounted for 14.8 percent of all persons arrested for narcotic drug law violations. A breakdown of arrests by type indicates that 86.5 percent were for possession violations and 13.5 percent were for sale violations. Analysis of individual drug categories (sale and possession together) showed that the highest percentage of all arrests, 73.9 percent, involved marijuana. The lowest percentage of arrests occurred in the methadone narcotics category, amounting to only 0.7 percent of the total reported narcotic arrests.

Reported arrests for narcotic drug law violations showed an overall numeric volume increase of 2,766 arrests, or a 8.6 percent increase over the year 1980.

GAMBLING ARRESTS

Arrests for gambling offenses during the year 1981 amounted to 0.3 percent of all reported arrests for Part I and Part II offenses. Males accounted for 92.5 percent of those persons arrested for gambling offenses. Persons under the age of 18 made up only 3.8 percent of all gambling arrests. The age category 25 to 29 made up 15.2 percent of all gambling arrests.

Total reported arrests for gambling offenses during the year 1981 decreased 6.5 percent over the year 1980.

Narcotic Drug Seizures and Confiscated Property

FLORIDA DRUG SEIZURES

BACKGROUND

Over the past several years, illegal drugs entering Florida have become an increasing problem and concern for Florida law enforcement personnel. By way of response to this concern, a drug survey form was developed to collect data on various narcotics and other controlled substances.

The results of this survey involve only those seizures in which 100 pounds or more of marijuana, 28 grams or more of cocaine, 4 grams or more of heroin or its derivatives, 200 grams or more of quaaludes and 28 grams or more of PCP were confiscated. The data collected were forwarded on a voluntary basis by local UCR contributing agencies. Rules regarding

geographical jurisdiction, as used for regular UCR data, were employed in submitting the survey information. Unless local agencies assisted in seizures by Federal agencies, the data from those seizures will not be included in this compilation.

For simplicity, statistical data will be presented for only specific types of drug seizures, which are marijuana, cocaine, heroin, quaaludes, and PCP. Joint seizures, where more than one drug has been confiscated are grouped under the appropriate category of that drug which had the most poundage seized. However, all weights of drugs confiscated during joint seizures are included in the totals.

1980—SUMMARY ANALYSIS

Of the 270 Florida drug seizures reported, 154 seizures or 57.0% were marijuana, 110 seizures or 40.7% were cocaine and 6 or 2.2% were heroin. Of the total seizures that occurred 55.6% were outside the city limits. There were 180 of the 270 total seizures occurring between the hours of 12:01 PM and 12 Midnight.

Florida residents accounted for 79.3% of the total number of

persons arrested. The largest number of arrests took place in Broward County with 139 or 22.5% of the total. Collier County had the next highest number of arrests with 53 or 8.6%.

With \$6,061,624 worth of property seized, aircraft consisted of 46.9% of the total amount or \$2,844,145. The largest number of any one type of item confiscated was that of cars, which constituted 12.0% of the total property value seized.

1981—SUMMARY ANALYSIS

Of the 475 Florida drug seizures reported, 219 seizures or 46.1% were marijuana, 165 seizures or 34.7% were cocaine, 7 seizures or 1.5% were heroin, 83 seizures or 17.5% were quaaludes and 1 seizure or 0.2% were PCP. Of the total seizures that occurred 285 were outside the city limits and 107 were made at residences. There were 340 of the 475 seizures occurring between the hours of 12:01 PM and 12 Midnight.

Florida residents accounted for 78.8% of the total number of

persons arrested. The largest number of arrests took place in Broward County with 159 or 16.3% of the total. Dade County had the next highest number of arrests with 151 or 15.4%.

With \$9,598,684 worth of property seized, aircraft consisted of 40.7% of the total amount of \$2,844,145. The largest number of any one type of item confiscated was that of cars, which constituted 11.4% of the total property value seized.

FDLE CHART

Agricultural Crimes

AGRICULTURAL CRIME

Background

With crime increasing in the rural areas of Florida, high property losses are causing many problems and hardships on those persons who depend on agriculture as their livelihood. Agricultural crime has caused great concern among state and local law enforcement agencies throughout Florida. As a result, a special agricultural crime collection data form was developed to collect information relating exclusively to agricultural crime.

Since data would be collected specifically for agricultural crime, a definition had to be established. Agricultural crime is defined as: "Any willful or malicious act committed by any individual(s), which results in damage to or loss of livestock, crops, land, materials, equipment or structures used in or produced as a result of any agricultural practice, excluding commercial agricultural businesses not owned by the producer." Information was collected for incident and property data, location data and persons data. Recovered property is included only for the amount recovered at the time of the incident.

The agricultural crime collection form was forwarded only to sheriff's offices because the nature of the data being requested would not generally be reported to a municipal law enforcement agency. Agricultural crime data was submitted to the UCR Bureau on a

voluntary basis and because of that and the fact that only sheriffs' offices submitted the information, the true number of these types of crimes may not be totally shown.

Summary

Statistics during 1981 show that agricultural crime is a serious problem in Florida with 1,138 incidents voluntarily reported by 39 of the 67 Sheriffs' Offices. The largest percentage of thefts occur in the areas of the state on a grove or orchard that is bordered by a secondary, paved road.

Only 25.0 percent of the total stolen property from agricultural crime is recovered. Stated another way, the farmer recovers only one dollar to every four dollars lost by theft or vandalism.

In less than 45 percent of all cases, animals or property could be identified if located. However, even a smaller percentage of all animals or property were marked, branded or tagged. This could indicate that even if animals or property are located no proof may exist that the livestock belong to a specific owner.

Only 132 arrests were reported from the 1,138 agricultural crimes that took place during 1981. Of the total arrested, 82.6 percent were residents of Florida.

LAW ENFORCEMENT PERSONNEL KILLED OR ASSAULTED

The Florida Uniform Crime Reporting Program requires the monthly compilation of statistical information relating to law enforcement officers killed in the line of duty and the number of assaults made on law enforcement officers.

The killing or assault of a law enforcement officer is an increasingly serious problem faced by the law enforcement administrator and should be of the gravest concern to the public at large. Such acts directly affect the functioning of proper law enforcement operations and thus reduce the ability of our law enforcement agencies to combat crime and maintain law and order. It is a deplorable situation when those persons who have chosen a career in law enforcement must assume the risk of being killed or assaulted by a member of the society they have sworn to protect.

LAW ENFORCEMENT OFFICERS KILLED

Six law enforcement officers were killed in the line of duty in Florida during 1981.

This is one less than was killed in 1980. From 1967 through 1981, there have been sixty-six officers killed in the line of duty. All of the offenses, except for one, have been cleared by arrest or by exceptional means.

On January 9, 1981, a deputy with the Polk County Sheriff's Office was killed with a .38 caliber revolver while responding to an abduction call. He was approaching a suspect when the incident occurred.

On March 5, 1981, a police officer with the Frostproof Police Department was killed with a small caliber handgun while confronting two suspects during the armed robbery of a Savings and Loan Association.

On April 11, 1981, an officer with the Florida Highway Patrol was fatally shot with a 12 gauge pump shotgun and 30-06 rifle after arriving at a trailer

where an escapee from prison was located.

On May 23, 1981, a deputy with the Duval County Sheriff's Office was killed with a 30-30 rifle in an ambush from an apartment building.

On July 24, 1981, a vice detective with the Tampa Police Department was killed with a .38 caliber revolver while attempting to make a narcotics arrest. A second detective was wounded in this incident.

On September 2, 1981, an officer with the Miami Police Department was killed with a .38 caliber revolver after he chased a fleeing felon into an alleyway.

One victim was killed from a range of less than 4 feet; one less than 10 feet; one at 15 feet; one between 15 and 20 feet; one at 16 feet, and one at 80 feet. All of the deaths except for one occurred without any warning alerting the officers to immediate danger.

The officers killed had 9 months, 7 years, 2 years, 11 years, 6 years, and 8 years of law enforcement experience, respectively. Their ages were 21, 23, 27, 28, 35, and 38. The ages of the suspects were 21, 24, 28, two at 31, 35, 37, and four ages not known.

The time of occurrences were 1:10 A.M., 4:20 A.M., 9:55 A.M., 11:49 A.M., 2:35 P.M., and 6:21 P.M.

ASSAULTS ON LAW ENFORCEMENT OFFICERS

The attitude of disrespect for law enforcement officials and the failure of citizens to come to the aid of the officers being attacked as they attempt to perform their lawful duties is one of the serious problems facing law enforcement today. A total of 5,438 assaults on state, county and municipal law enforcement officers in Florida were reported during the year 1981. This represents a 13.6 percent increase over the 4,788 assaults reported for the year 1980. While every assault does not result in personal injury to the officers involved, many of them did result in physical harm to the officer and loss of duty time in many cases. During 1981, 1,339 or 24.6 percent of these assaults resulted in personal injury to some

extent, while 1980 showed a 28.0 percent physical injury rate.

LAW ENFORCEMENT EMPLOYEE DATA

The Florida Uniform Crime Reporting Program, in addition to collecting basic offense and arrest information, provides for the annual compilation of statistical information relating to county and municipal law enforcement employees.

Specific information concerning the number of law enforcement employees reflects that there are 28,504 full-time sworn and civilian employees as of October 31, 1981, excluding the 3,717 state law enforcement employees and campus police employees. This reflects an increase of 7.4 percent over the 26,552 reported as of October 31, 1980.

In 1981, the average number of full-time law enforcement employees (both police and sheriff employees), including civilian personnel, amounted to 2.8 employees for each 1,000 inhabitants of the state. This represents no change over the 1980 rate. The rate based on sworn personnel only (excluding civilian employees) amounted to 1.9 per 1,000 population, which reflects no change over the 1980 rate. The reader is reminded that the employee rates, expressed here and within the various charts, should not be construed as representing recommended ratios for Florida law enforcement agencies. These rates do not take into account the previously mentioned factors and merely represent an average based on county and municipal totals. This rate does not include the state law enforcement or campus police employees.

LAW ENFORCEMENT EMPLOYEE RATES

The rate of law enforcement employees per 1,000 population in any given community is influenced by a number of factors, much the same as the crime rate. Employee rates differ among agencies since, in particular, there is a wide variation in the responsibilities and level of activity within the various law enforcement agencies. The determination of law enforcement strength for a given county or municipality is based on factors such as population density,

size and character of the community, geographic location and other conditions which exist in the area generating the need for law enforcement services.

The relative stability of population factor, for instance, is particularly evident in Florida, with its numerous resort areas having high mobile and seasonal populations. Obviously, the need for law enforcement services in such areas is different from that of locales with a relatively fixed population.

COUNTY SHERIFF'S DEPARTMENTS

As of October 31, 1981, there were 13,244 persons (sworn and civilian) employed full time in Florida's 66 countywide law enforcement agencies (Office of the Sheriff — Jacksonville is included in the municipal figures). Of these, 8,285 were sworn sheriffs and deputies amounting to a rate of 1.7 sworn personnel per 1,000 population, reflecting no change from the number of sworn officers in 1980. The 1981 civilian employees constitute a 1.0 rate of employees per 1,000 estimated population. The computation of the personnel ratios is based on the estimated population of the unincorporated areas of the counties and not on the entire county estimate. This does not include the state law enforcement or campus police employees.

In an attempt at comparisons of employment levels of individual sheriff's departments with other agencies, consideration must be given to certain functions that are peculiar to a sheriff's department. In addition to their active role in criminal matters, they may serve civil process, administer major jail facilities and furnish a bailiff staff for the courts. These functions are usually performed by sworn personnel, thereby presenting a misleading picture of the actual enforcement strength of the department.

MUNICIPAL POLICE DEPARTMENTS

Of the 15,260 full-time employees (sworn and civilian) employed by 269 municipal police departments in Florida as of October 31, 1981, 11,214 were sworn personnel. This amounts to a rate of 2.1 sworn personnel per 1,000 estimated inhabitants. The number of municipal sworn employees in-

creased 4.2 percent from 1980, and the rate reflected no change over the 2.1 per 1,000 population in 1980. The 4,046 civilian employees constituted a 0.8 rate of employees per 1,000 population. This does not include the state law enforcement and campus police employees.

SEX OF LAW ENFORCEMENT EMPLOYEES

The year 1972 represented the first year that information was collected on a statewide basis concerning the sex of sworn and civilian full-time employees. Male-female breakdowns are now required

on both civilian and sworn employees as well as the total law enforcement employees. As of October 31, 1981, males constituted 75.5 percent of all employees while there existed 24.5 percent full-time female employees. Of the sworn personnel, 92.8 percent were male and 7.2 percent were female employees. These sworn rates differed markedly from the staff function rates as males made up 38.0 percent of the civilian employees while 62.0 percent were females. This does not include the state law enforcement and campus police employees.

Glossary of Terms

GLOSSARY OF TERMS

ADULT—For Florida Uniform Crime Reports purposes, a person age 18 or above.

ARREST RATE—The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARED BY ARREST—For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense and (3) turned over to court for prosecution.

CRIME FACTORS—Conditions which affect the amount and type of crime that occurs in a geographical area. (See page 8 for list of Crime Factors.)

CRIME INDEX—The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a given geographical area. Crime classifications used in the Index are: Murder, Forcible Rape, Robbery, Aggravated Assault, Breaking and Entering—Burglary, Larceny and Motor Vehicle Theft. Each of these offenses is referred to as an "Index-Offense."

CRIME RATE—The number of Index Offenses reported for each unit of population, generally per 100,000. Crime rates are computed for communities with varying populations by dividing the number of Index Crimes by the population and multiplying the answer by 100,000. (Example: $500 \text{ Index Offenses} \div 10,000 \text{ population} \times 100,000 = 5,000 \text{ Crime Rate.}$)

EXCEPTIONAL CLEARANCE—A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

JUVENILE—For Florida Uniform Crime Reports purposes, a person under the age of 18.

NONRESIDENT OUT OF COUNTY, ARRESTED—An arrested person who resides within the State of Florida, but outside the county in which the arrest report is made.

NONRESIDENT OUT OF STATE, ARRESTED—An arrested person who resides outside the State of Florida, but committed crime(s) in the State of Florida.

NONVIOLENT CRIME—Consists of the Index Offenses of breaking and entering—burglary, larceny and motor vehicle theft.

PART I OFFENSES—The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur most frequently. The tabulation of Part I offenses provides a count of "offenses known." (See page 6 for a listing of these offenses.)

PART II OFFENSES—The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Tabulations of Part II offenses are limited to arrest information only.

VIOLENT CRIME—Consists of the Index Offenses of murder, forcible rape, robbery and aggravated assault.

UCR SYSTEM FLOW

The Uniform Crime Reports and Statistics Bureau of the Florida Department of Law Enforcement is continuously dedicated to the goal of providing complete, reliable, and accurate statistical data on crime in Florida. The following systems flow chart shows the procedures used by the UCR staff to handle data received from contributing agencies.
